SUMMARY

Accomplished Front-End Web Developer (Remote) at Pixeldart Software Services, Surat, Gujarat, with expertise in building scalable, reusable components using HTML, CSS, JavaScript, React.js, and Next.js. Skilled in Git/GitHub repository management, TypeScript for strong typing, and backend integration with Node.js and NestJS. Adept at API design, NoSQL schema structuring (MongoDB), and headless CMS platforms like Strapi, Prismic, Contentful, and Ghost.org. Focused on creating responsive, modern UIs using Tailwind CSS and Bootstrap, while thriving in a fully remote work environment.

SKILLS

HTML, CSS, Java Script, JQuery, Tailwind CSS, React Js, Next JS, Bootstrap, Git, Git Hub, Typescript, Node Js, Nest Js, SQL, Mongo DB, Firebase, Strapi CMS, Prismic CMS, Contentful CMS, Ghost org.

EXPERIENCE

Pixeldart software services May 2021 - Present

Front end Web Developer

- Began with basic assignments
- Oversaw entire project workflows while engaging with clients
- Appointed as senior member of the web development team
- Enhanced understanding of backend technologies through NestJS and Node.js
- Begin duties as full-stack Developer
- Developed reusable and scalable components such as buttons, input fields, and complex forms, contributing to front-end modularity and maintainability.
- Managed multiple repositories, handled version control, commits, code pushes, and coordinated team collaboration with pull requests and branching strategies.
- Implemented strong typing to improve code reliability and maintainability, creating interfaces and types for complex application logic.
- Designed and structured schemas, built APIs, and integrated NoSQL databases for dynamic data storage and retrieval.
- Set up content models, structured data, and integrated headless CMS systems into various applications for seamless content management.
- Customised and developed templates and themes for content-driven websites, ensuring responsive design and optimised performance.
- Crafted modern, responsive UI components using utility-first CSS, adhering to best practices for cross-browser compatibility and mobile responsiveness.

LANGUAGE

English, Hindi, Gujarati.
